Why does TTC need to make this plan

TTC needs to make this plan due to Toniron’s interest to bid for the 5 Year Mocodonia Event, therefore the transport system in Toniron needs to improve to avoid a repeat of the 3 Year Mocodonia Event.

Increased Funding

As part of the $10.5 Trillion Duro infrastructure spending package approved by the Zuik Government ahead of the 5 Year Mocodonia Event and the 2028 Mocodonia World Cup. More funding has been allocated to the TTC.

Districts of Toniron (DoT) Connection Plan

The following plan is planned to connect all the Districts of Toniron (DoT) with at least ONE metro or other transport connection. More

information will be added later in the document. This plan was approved by the Toniron City Government, however some plans have been rejected.

Districts of Toniron (DoT) Development Plan

The Districts of Toniron (DoT) Development Plan is a new plan approved on October 13, 2026 by the Toniron City Government, the plan is planning on approving major developments in different districts. Some of the following large developments will be shown below.

- Victoria Shopping Centre (ZK3Bypass, next to Toniron Victoria station)
- Bluekurio Dome (ZK3Bypass, next to Bethnal Blue station)
- RSC Square (Downtown Toniron, new station needed)
- Celebration Square Shopping Centre & Redevelopment (Downtown Toniron, new station needed)
- Chime Circus Development (Downtown Toniron, next to Chime Circus station, a new station could be needed called Chime West)
- Impson Park (Downtown Toniron, next to Impson DLR station)
- The View (Main District, next to Main District Lenter station)
- The Gem 2 (Downtown Toniron, new station needed)
- The Gem 3 (Main District, next to multiple stations)
- Kendon Library (Downtown Toniron, new station needed)
- Whistler Business Park (Downtown Toniron, next to Whistler International station)
- Whistler Shopping Centre (Downtown Toniron, next to WHistler International station)
- Bonenfield Shopping Centre (South Toniron, new station needed)

- Bonenfield Housing Development (South Toniron, new station needed)
- Kartfield Housing Development (ZK3Bypass, new station needed)
- Umstat District Centre (Umstat, new station needed)

TTCBus Improvements

TTCBus is going to receive more bus lines, including a new Whistler Bus Terminal (next to Whistler International). TTCBus will launch the 54 Bus from Towerbrook - Whistler Bus Terminal, and the new 55 Bus from Whistler Bus Terminal - Quartz Centrale (it will be the first international bus operated by TTC, parts of it will be managed by QBC - Quartz Bus Corporation)

DTB Improvements

A new service called the DTB (Downtown Toniron Buses) has been created to provide more bus routes to Downtown Toniron.

Planned Lines & Extensions

These are the current under construction and planned lines, this also includes extensions to existing lines.

Southern Line Extension (SLE)

The Southern Line Extension was an extension to extend the Southern Line from Blueford to Toniron Zuid, while also adding a new infill station at Southiron International, and a new branch line to Manton Apartments. The extension also resulted in the Bluekurio BK2 trains

being upgraded to Bluekurio BK4Neo trains. The extension was finished on September 14, 2026 and free rides ended on September 15, 2026.

Kirkland Line

The Kirkland Line is a new line that goes from Kirkland Oost to West Toniron Centraal, the line opened on September 27, 2026 and free rides ended on September 28, 2026. The line uses leftover Bluekurio BK3 trains.

Airport Line Extension (ALE)

The Airport Line Extension is a planned extension that will extend the line to the new Terminal 5 of Toniron International Airport (TIA). The line will also go into Forfin (Forfin section will be managed by the FTA). Construction on the extension is expected to start after the University Line. This extension will also upgrade the rolling stock the new Bluekurio Rejio trains (which are currently in testing)

University Line

The University Line is a new planned line connecting the University of Toniron to Democracy Bridge, the line will allow students living in South Toniron to commute to the university. Construction started on September 28 and the line is expected to open on October 16, 2026. The station will run from Bethnal Blue to Democracy Bridge.

Civilized Line Extension

The Civilized Line Extension is a planned extension to the Civilized Line that will extend the line from Pre-Downtown station to Whistler International station. The extension will start construction in mid-late October 2026.

Northam Line

The Northam Line is a planned line going from Aldwick Street to Northam Central connecting South Toniron to Northam (aka Toniron Heights), this line will also go through some parts of the Main District bringing in commuters and making it an important line to build. This line is going to start construction in late 2026 or early 2027. Construction is expected to finish by March 2027.

Capital Line Extension 2 (CLE2)

The 2nd Capital Line Extension is a planned extension for the Capital Line that will add 2 new stations, 1 north and 1 south. In the North it will extend from Kensing to Toniron-Nord/iCity-Zuid, while in the South it will extend from Main Roundabout to Southiron International (using the same tunnels as the LimeOrange Express but using different tracks). Construction on the extension will start in December 2026 and is expected to open in January 2027. Construction could be fast tracked and construction could be started in October.

Capital Line Branch Line to Downtown

The Capital Line Branch Line to Downtown plan is a planned branch line to go to Downtown Toniron from the Capital Line. The line would branch off at Kensing and run from Kensing to Celebration Square or further. This branch line is still in early planning and it’s possible that construction doesn’t start until March 2027. If it starts in March 2027, the branch line is expected to finish in either March or April 2027.

Aero Line

The Aero Line is a planned line to connect the Main District to Downtown Toniron, specifically the new Toniron Ton Airport that is currently under construction. The line will be using the new Bluekurio Rejio trains (which are currently in testing), the line is expected to start construction before the airport opens to try and get the line opened on the same day as the airport.

Green Line

The Green Line is a planned line running from Bonenfield to Main Roundabout, however it loops up to near Beckingston station before going back down, connecting South Toniron, ZK3Bypass, and Main District. Construction is expected to start in late 2026 or early 2027.

Gold Line

The Gold Line is a planned line that will connect South Toniron to the Main District, specifically connecting the Bronze House of Zuik with the Parliament of Zuik. Construction on this line will start in February 2027.

TTC TIALink

TTC TIALink is a planned airport people mover that connects the terminals of Toniron International Airport, it will be a airport people mover using leftover Bluekurio BK2 and TonTrain 4 trains. It will be an landside people mover to connect the terminals and will be before immigration/zID checkpoints at the arrival gates for the terminal. Construction was going to start on October 6, but it got delayed. Costs have increased 20% to $500 Million Duro’s meaning it would be the most expensive airport people mover in all of Mocodonia. The project has to be underground due to a Toniron City Government law banning any overground rail lines from going over Toniron International Airport due to the busy traffic at the airport.

Zuni Line Revival

The Zuni Line Revival was a plan to turn the Zuni Line (which was shut down in February 2026), into a new express service that served Main District Toniron. However this plan was rejected by the Toniron City Government.

Circle City Line

The Circle City Line is a line connecting Main District - Circle City district, the line will go from Zandan Station to Circle Central station. Construction is expected to start in November 2026.

Skull Toniron Line

The Skull Toniron Line is a line that will go from South Toniron Entrance to Tonport Station. This line is in early planning, it was approved on September 24, 2026.

Eastford Line

The Eastford Line is a line going from Main Roundabout - Eastford International, it’s a planned line that will start construction in May 2027. This line is planning to use Classnix Class 100 trains.

Khame Line

The Khame Line is a planned line to connect Toniron to the new Toniron Khame Airport. On October 13, 2026 the TTC approved the route for the line, the line will run from Zandan to the airport. The stations will be listed in a separate document called the Toniron Transit Company Khame Line Planning Document. The planning document will be released soon.

Downtown Line

The Downtown Line is a proposed line to connect Main District - Downtown Toniron. The current plan is to go from Toniron Central to Whistler International station. Construction is expected to begin after the Civilized Line Extension and Airport Line Extensions are completed.

DN1 Line

The DN1 Line is a planned line to connect South Toniron to Downtown Toniron. The line was approved by the Toniron City Government and will begin construction in May 2027.

DLR1 (Downtown Light Railway)

The DLR1 is a light rail line connecting Main District to Downtown, it goes from Main Roundabout to Whistler International. The line was expected to open during the end of September 2026, however it actually opened on October 1, 2026.

DLR2 (Downtown Light Railway)

The DLR2 is a planned light rail line connecting the Main District to Downtown Toniron, This line will run from Toniron Central to Whistler International, construction will start on October 15, 2026.

DLR3 (Downtown Light Railway)

The DLR3 is a planned light rail that will go from Whistler International station to Celebration Square station.

DLR4 (Downtown Light Railway)

DLR4 is a planned light rail line that will connect Celebration Square to Toniron Ton Airport Terminal 6 station.

TR1Loop

The TR1Loop is an under construction line that is circling around the TR1 Ring Road.

ZK3Line

The ZK3Line is a line that goes through the entire ZK-3 Highway. The Toniron section goes from Main Roundabout to Toniron-Forfin Square. It was finished up in October 2026.

Noord-Zuid Line

The Noord-Zuid Line is a planned line that will go from Toniron-Nord/iCity-Zuid to Toniron Zuid, going from North to South of Toniron. Construction is expected to start in June 2027.

Central Toniron Loop (CTL)

The Central Toniron Loop (aka CTL) is a project that will loop around major stations in Main District Toniron to link them together. Construction started on October 1, 2026.

Tour Line

The Tour Line is a new planned line that will take pressure off of the other lines. This line is planned to connect most tourist attractions in Toniron including but not limited to the Zuik Mansion, Main Roundabout, the TIA Crater, and the Juni Zuik Capital Building.

DWI Express

The DWI Express is a planned express route owned by both TTC and CSRLink. The line will run from Whistler International to DWI Airport with minimal stops, the only planned stops are in a station in Main District (however it’s not certain which station yet). The express service will use new Classlink Class 102 trains that were designed just for this express service. The express service will also stop at both Terminal 1 and Terminal 2 of DWI Airport and the metro station.

Approvals

As of September 10, 2026 all lines except the Zuni Line and the Toniron YLine have been approved by the Toniron City Government. These are subject to change and the Toniron City Government could revoke

permissions at any time, permission cannot be revoked when construction starts unless it is an emergency.

Toniron XLine

The Toniron XLine is a line managed by Toniron Railways (TR) and TTC. This line is jointly managed and funded by both companies. The Downtown Redevelopment Corporation. The line is currently under construction and expected to finish in early 2027. The Main Branch finished in late September 2026, the Eastford Branch is expected to finish in late October 2026 and the Downtown Branch will open in early 2027.

Toniron YLine

The Toniron YLine is a planned sequel for the XLine, it hasn't been approved and is in early planning. It will run from Greensted (or Aundh) - Navi Toniron. However nothing has been confirmed yet

Toniron HiSpeed One Preparation Plan

The Toniron HiSpeed One Preparation Plan is a plan to improve stations in Toniron for HiSpeed One, some stations will be rebuilt and some stations will be new stations built, some stations will also just receive new platforms or levels.

New Stations

The following stations will be new stations on the HiSpeed One line.

- Rip Dead International Airport Terminal 4 Station
- TON T2 Station
- Celebration Square
- International Centre
- RSC Square
- Tonport Station

New Underground Platforms/Expansions

The following stations will be upgraded with new platforms or will have their platforms expanded, this list will also just have general station upgrades.

- *Whistler International*
- Getting new underground platforms and will have interchange with other lines.
- *Chime Circus*
- Chime Circus is going to get a new underground level and interchange with the Toniron XLine will be created.
- *Greenway Park*
- Greenway Park will mostly remain the same, however underground platforms could be expanded and a new station building could be built.

- *Emerald Way*
- The station will have an expanded underground level for HiSpeed One.
- *Main St*
- Main St station will have a huge underground level expansion, and could have a link to Toniron Central.
- *Main Roundabout*
- Main Roundabout will have an underground level expansion
- *Eastford International*
- Eastford International station will have upgrades to the surface level building, with new underground platforms.

Rebuilds

HiSpeed One will result in several stations in Toniron being rebuilt, the stations will be listed below.

Toniron Central

Toniron Central is being rebuilt in 2 phases, Phase 1 was completed on September 7, 2026 with Toniron Central’s main surface building being rebuilt with the old one being demolished, however retail units are still under construction.

Phase 2 is going to start on September 24, 2026 and will result in Toniron Central getting a new station entrance and a major expansion, the new surface level building will be built on the site of the old site for the Dune - Toniron LSR terminus (which in new planning will just stop at Nortwick).

Zandan (completed)

Zandan Station got a rebuild of its surface level building and a new connection to the TR1Loop Platforms. Most of the underground platforms remained the same however could be expanded in the future if more space is needed for HiSpeed One.

South Toniron Entrance

South Toniron Entrance is going to be rebuilt with more capacity and platforms will be expanded. The station is expected to close on October 13, 2026 with Southern Line trains skipping the station until the rebuild is complete.

Southiron International

Southiron International station will have a rebuilt surface level building, the road in between the currently 2 surface level buildings has several options, it could be removed, put above the station, or put the road underground. However putting the road underground could result in several problems with the station, and people at TTC are still surveying what to do with the road. The entire station is expected to close in

March 2027, when the station does close, trains will run past the station.

Xenon International

Xenon International station will be rebuilt for HiSpeed One, Aerostar services will be disrupted with services running past the station. The rebuild is expected to start in late September 2026. However due to funding issues, the rebuild has been delayed. The station is currently closed.

New TTC Map

TTC is working on a new map for TTC to be more geographically accurate, the map should be rolling out by June 2027.

Toniron-Azjailia Light Railway (TALR)

The Toniron-Azjalia Light Railway is a planned light railway that will connect Toniron to its suburb in Azjailia. It will run from Nortwick to Azjailia South, also connecting all of Azjailia in the line. After some consideration and delays for construction, the line was decided to be elevated until it got to Azjaila when it would go underground.

The New Business Row Station

A new station called Business Row will be built and it will be a major interchange. It is planned to be an interchange of the Green Line, Airport Line, WT Line, Civilized Line, and Northam Line. All of these lines will be closed for the construction of the new station soon.

Conclusion

The TTC ‘27 Plan is a plan to improve transport connections in Toniron for the 5 Year Mocodonia Event (November 18, 2027), and is aiming to get all of these projects finished before that day. The funding from the Toniron City Government, CSR Provincial Government, Zuik Government, and Mocodonia Transport Bank will be used to get the planned extensions and additions to the Toniron Transport network completed.

This plan is expected to be the most expensive transport plan in the entire Toniron Metro Area, it’s estimated to cost $58.5 Billion Duro’s to build all the extensions and additions to the network.

The TTC will work together to successfully comply and complete the Districts of Toniron (DoT) Connection Plan and the Districts of Toniron (DoT) Development Plan. The connection and development plans will both work together to create a better To
